

The background of the entire slide is a photograph of a night sky. The Milky Way galaxy is visible as a bright, diagonal band of stars and nebulae, stretching from the upper left towards the lower right. The sky is filled with numerous individual stars. In the lower right foreground, the dark silhouettes of two people are visible, standing on a low ridge or hill. One person is pointing their right arm towards the bright part of the Milky Way. The overall scene is dark and atmospheric, with the primary light source being the stars and the galaxy.
